Avast Premium Security

Complete protection against online threats.

Advanced antivirus: Blocks viruses, spyware, and other threats in real time.

Web Shield: Blocks dangerous downloads and websites.

Network Inspector: Detects weaknesses in both your home Wi-Fi network and public networks.

Real Site: Prevents you from visiting fake sites designed to steal passwords and money.

Email Shield: Prevents you from sending or receiving malicious email attachments.

Ransomware Shield: Prevents ransomware from harming files in your protected folders.

Behavior Shield: Spots suspicious software behavior to protect you from 0-second threats and ransomware.

Sandbox: Lets you open suspicious files in a safe environment to protect your PC.

Advanced Firewall: Monitors and controls what goes in and out of your computer.

Webcam Shield: Blocks untrusted apps from accessing your webcam.

Automatic Software Updater: Updates the most popular apps on your PC to help plug security holes.

Data Shredder: Helps you permanently delete sensitive files so they can't be recovered.

Sensitive Data Shield: Stops spyware from accessing sensitive documents on your computer.

Do Not Disturb Mode: Silences notifications from Windows, other apps, and even our own Avast apps.

Smart Scan: One scan finds everything from hidden malware and browser threats to outdated software and other vulnerabilities.

Cybercapture: Analyzes unknown, potentially malicious files in the cloud and creates a cure for all Avast users if they're a threat.

Rescue disk: Creates a bootable version of the Avast scanner on a CD or USB drive to help you repair a computer that's too infected to start.

Password Protection: Secure your browser-stored passwords against theft.

Remote Access Shield: Block remote access attacks to stop hackers from accessing your PC.

Hack Alerts: Get an alert if any passwords connected to your email account have been compromised as part of a hack or leak.

System requirements:

Windows 11, 10, 8.1, 8, 7 (SP1 with Convenient Rollup Update) (32 or 64-bit), 1 GB RAM, 2 GB free hard disk space.

Internet connection to download, activate, and maintain application updates and antivirus database.

Avast SecureLine VPN (Multi-Device)

Military-grade privacy protection for up to 10 devices.

Real privacy: Hide your activities from your Internet provider, advertisers, employers and more.

Connect securely: Protect your privacy wherever you connect, even on unsecured public Wi-Fi.

Access the content you love: Get around content blocks and enjoy your favorite paid streaming services from anywhere.

Lightning fast: Pick from a broad variety of speedy servers all around the world.

Enjoy a better P2P experience: Enjoy hi-def movies, lag-sensitive twitch gameplay, and easily transfer large files with a click.

Be anonymous: Disappear in a crowd of other Avast SecureLine users, with a single shared IP address.

Hide your IP Address: Keep your real IP under wraps over IPv4 and block IPv6 requests with DNS leak protection.

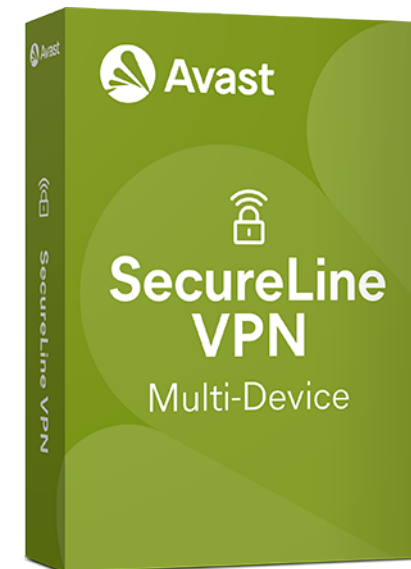

256-bit AES encryption: All your incoming and outgoing data is encrypted and invisible to snoopers.

Stream and game effortlessly: Share streams simply and privately — select servers support P2P.

Smart VPN: Automatically selects your optimal server location, so you can focus on enjoying your connected life with no hassle.

Choose from 700 servers in 34 countries: Wherever you live, we've got the perfect server for you.

Access Android TV: Stream content directly on your Android smart TV, Nvidia Shield TV, or Mi Box, privately and securely.

System requirements:

PC: Windows 11, 10, 8, 8.1, 7 SP1 or higher, 256 MB RAM or above, 300 MB free space on the hard disk

Mac: Apple macOS 10.12.x (Sierra) or later (NOTE: Advanced features, like Smart VPN and improved connection methods, are available for Apple macOS 10.15 and later)

Android: Android 6.0 (Marshmallow, API 23) or higher

iPhone/iPad: iOS 13 or higher

Internet connection to download, activate, and use the VPN service.

Avast Driver Updater

Stop invasive tracking for greater online privacy.

- Prevent freezing and crashing:** Updates faulty and old drivers — the top causes of crashes, freezes, and bluescreens — so you don't have to miss a beat.
- Fewer device problems:** Driver Updater finds the latest driver versions for maximum stability and smoother performance. Helps solve connection problems, mouse or printer issues, and much more.
- Improve graphics and audio:** Boosts performance by updating graphics and audio drivers so you can enjoy crisper audio and images in multimedia apps, streaming services, games, and more.
- Enjoy faster browsing:** Keep your Wi-Fi connection from dropping. Driver Updater eliminates interruptions with just a few clicks so you can always stay connected.
- Install drivers from more than 1,300 major brands:** Our one-click scan makes it easy to find the drivers you need for your printer, scanner, camera, speakers, keyboard, and other devices.
- Automatically scans over 25 million drivers for peak PC performance:** Driver Updater detects old, corrupt, missing, or outdated drivers, fixes bugs and vulnerabilities, and backs up and, if needed, restores current drivers.

System requirements:

Windows 11, 10, 8, 8.1, 7 (SP1) (32 or 64 bit), 1 GB free space on the hard disk, 1 GB RAM or above
Windows fully compatible PC with Intel Pentium 4 / AMD Athlon 64 processor or above (must support SSE2 instructions).
Internet connection to download and use the application.

Avast AntiTrack Premium

Disguises your online identity for greater privacy.

- Stop online tracking:** Instantly block tracking attempts and expose who’s trying to gather information from you.
- Disguise your online profile:** Mask your digital fingerprint to prevent advertisers from knowing who you are.
- Hide your browsing history:** Automatically clear your history, cookies, and other browser data.
- Check your privacy status:** Get an overview of your privacy status and tracking attempts we’ve prevented.
- Browse without disruptions:** Stay private without breaking webpages or triggering annoying warnings.
- Stop targeted ads:** When you are shopping online, we hide your purchases so you don’t see the same ads.
- Secure your favorite browser:** Use it on your favorite browser — Chrome, Firefox, Edge, Internet Explorer, and Opera.
- Make Windows 10 work for you:** Helps you easily adjust system settings to keep your data private from hackers.

System requirements:

Windows 11,10,8.1,8,7 SP1 or later,512 MB RAM or above,300 MB free space on the hard disk
Internet connection to download, activate and use the service.
Supported browsers: Edge, Internet Explorer, Chrome, Firefox and Opera
